

**NEW
DEMOCRAT
COALITION**
CLIMATE CHANGE TASK FORCE

The New Democrat Coalition is made up of more than 100 forward-thinking Democrats who are committed to pro-economic growth, pro-innovation, and fiscally responsible policies. New Democrats are a solutions-oriented coalition seeking to bridge the gap between left and right by challenging outmoded partisan approaches to governing. New Democrats believe the challenges ahead are too great for Members of Congress to refuse to cooperate purely out of partisanship.

CLIMATE CHANGE TASK FORCE LEADERSHIP

Co-Chairs

Reps. Don Beyer, Sean Casten, Elaine Luria, and
Susan Wild

CLIMATE CHANGE TASK FORCE MISSION

Climate change is an existential threat to the health, national security, economic prosperity, and future of our people and planet. The New Democrat Coalition Climate Change Task Force seeks to foster a pro-climate agenda that would meet the targets set by the Paris Climate Agreement. Our best shot of hitting these goals is if we use all of the tools and solutions we can get our hands on as we transition to more sustainable and clean energy. We will seek to eliminate barriers to growth for pro-climate businesses, support market based mechanisms to reduce greenhouse gas pollution, eliminate clean energy inequities in federal policy, boost resilience, energy innovation, and technologies that address climate change, and promote policies that advance energy efficiency as well as help foster business practices that eliminate energy waste.
