

February 13, 2020

The Honorable Donald J. Trump  
President  
The White House  
1600 Pennsylvania Avenue, NW  
Washington, DC 20500

Dear President Trump,

American autoworkers, parts suppliers and retailers, dealers, vehicle service providers, and millions of consumers have lived under the threat of tariffs since you initiated the Section 232 investigation into auto imports on May 23, 2018. The Secretary of Commerce submitted the Section 232 report to you in February 2019; however, the report continues to be hidden from Congress and the public.

As Members of the New Democrat Coalition Trade Task Force, we once again want to reiterate that we do not believe that imported automobiles and auto parts and the hard-working Americans in the auto sector are a national security threat. As you have admitted publicly, there is no national security risk from automobiles and auto part imports. In fact, your abuse of the Section 232 tariff process jeopardizes our national security by alienating our allies and threatening the economic security of American workers. Imposing tariffs under Section 232 on autos and auto parts for reasons not related to national security clearly oversteps the authority granted by Congress.

Further, to help bring more transparency to this process, Congress included a provision in the Consolidated Appropriations Act for Fiscal Year 2020 which required the release of the section 232 report by January 19th of this year. You signed this legislation into law; however, you continue to refuse to release the report to Congress and the public.

You are therefore not only in violation of Section 232 of the Trade Expansion Act of 1962, but also the Consolidated Appropriations Act for Fiscal Year 2020. Your willful disregard for these laws threatens American workers as well as the balance of power that is so essential to our Constitution. We implore you to not only release the Section 232 report on imported automobiles and auto parts as required by law, but strongly urge you to abandon any further tariff action that threatens the American automotive sector, auto workers, and our economy.

We look forward to the immediate release of the Section 232 auto report to Congress and the abandonment of the tariffs you are considering implementing.

Sincerely,

Rep. Terri A. Sewell
